

# PRICE Systems International partners with FifthQuadrant

## Combining lifecycle estimation solutions and Systems Integration

PRICE® Systems International (PSI) the leading experts and provider of cost estimation solutions announce a partnership with FifthQuadrant. FifthQuadrant's expertise in systems integration, working with large complex organisations, complements the estimation solutions expertise from PSI to drive greater value for their clients. This partnership will enable FifthQuadrant and PSI to seamlessly support large scale and complex deliveries with their specialist capabilities.

Andy Tidd, FifthQuadrant Partner.

We see customers benefit from our 'Delivering Differently' approach" said Andy Tidd, FifthQuadrant partner. "Our expertise comes from years of supporting clients through different economic cycles and addressing complex business challenges. This partnership is a great opportunity for FifthQuadrant and PRICE® Systems to deliver greater customer success with our combined capabilities."

Georges Teoglou, Head – PRICE® Systems International.

We see working with FifthQuadrant, as a very exciting opportunity to enhance and broaden the value that we can offer to our customers" Said Georges Teoglou, Head of PRICE® Systems International

### **About PRICE Systems**

PRICE® delivers fact-based decision support and analytical software, predictive power, and confident estimates. For more than 45 years, governmental organizations worldwide, their vendor partners, and leading commercial manufacturers have relied on PRICE's proven and continually advancing expertise, best practices and research-driven costing software. PRICE® MBCE™ enables engineers, pricing experts, and program and BD leaders to more quickly, accurately, and consistently estimate cost, schedule, and uncertainty.
